SECRETARY AND TREASURER ARE NAMED BY THE SCHOOL DIRECTORS

Dr. Faddis Re-elected Secretary-- K. W. Daly is Elected Treasurer

SCHOOL DEPOSITORY CHANGED

Custom of Past Years Will be Followed in Financial Affairs—Ceilings of Two Ninth Street School Rooms to be Lowered.

In accordance with the provisions of the school code, the Charleroi school board Monday evening held their yearly meeting for the election of a secretary and treasurer. Dr. T. M. Faddis was re-elected secretary and Kerfoot W. Daly cashier of the Bank of Charleroi was elected treasurer.

The election of Mr. Daly as treasurer signifies the annual change in the school depository. Last year the Charleroi Savings and Trust company was the school depository, and the previous year the First National bank was the depository. Following the custom, the Bank of Charleroi will be made the depository this year.

Members of the board present were President W. D. Pollock, H. J. Booth, R. C. Mountser, Dr. F. C. Stahlman, Joseph Schoener and Dr. T. M. Faddis.

Matters pertaining to repairs needed at the Ninth street building were taken up, and Carey Brenton was employed as an architect to prepare specifications for lowering the ceilings of two rooms which some time ago were cut from the school auditorium there. Difficulty in heating has been noted, leading to the present action.

Tax Collector J. W. Mathias reported tax collections for 1910, 1911, 1912, 1913 and 1914 amounting to $845.71. Treasurer E. W. Hastings reported for the month of June the condition of the treasury as follows:

Balance from last report ..	$1,673.78
Receipts for month	4,827.75
Total	$6,501.53
Disbursements	5,696.08
Balance	$ 805.45

COUNTY TREASURY DEPARTMENT BUSY CHECKING UP TAX RETURNS

July 1 was the last day in which to pay merchantile tax. The county treasurer's office has been busy for several days checking up on the returns from this tax payment. Reports from the banks over the county that received this tax are coming in, and it requires much care to keep track of the work. Extra clerk hire has been necessary. State and county tax is now being paid, though not as much so far as is usual at this time of the year. On state and county tax the discount is given, if paid by August 1.

TWO WELL KNOWN GREEN COUNTY MEN CLAIMED TO HAVE SUICIDED

Bodies of Attorney William A. Hook and William Trimble Found at Different Points.

The discovery of two dead bodies in Greene county Sunday, one being that of Attorney William A. Hook, aged 77, oldest member of the Greene county Bar Association and formerly district attorney, and that of William Trimble, aged 70, a wealthy farmer, brought to light that both men had committed suicide.

The body of the aged attorney was found hanging to a tree on the old Hook homestead, about two miles south of Waynesburg.

Trimble's body was found in his home in Jefferson township, and burns about the mouth indicated that the man had taken poison.

RAILROAD EDICT BEING ENFORCED

Comparatively Little Difficulty Noted in Preventing Illegal Crossing

WATCHMAN NOW AT SECOND

With but little difficulty the Monongahela division of the P. R. R. on Sunday and Monday started the enforcement of their recently declared crossing edict. One arrest was made on Monday of a man who declined to obey the injunction of P. R. Detective J. A. Henderson when told to cross at Second street. This individual continued along the tracks to Second street when P. R. R. Detective J. R. Chalfant stopped him. He was taken before Justice of the Peace E. E. Rice and fined.

The order from the railroad is that Second street must be used as the crossing. The use of Third or any other crossings will be met with arrests. This is the instruction of Capt W. J. Davis of the police department. A watchman is now on duty every day at Second street.

Rodgers, and others, interested in the land taken, have filed a petition for a rehearing. A number of allegations are set forth, wherein it is averred the court erred in its rulings.

CARNIVAL ATTRACTS BIG CROWDS MONDAY

Moose Mardi Gras Opens up in Full Blast at Ball Grounds—"Great White Way" Among Notable Features

Attracted by the advertised offers to the public with their compliments ing and by the gleam of the "Great ... free program consisting of concerts White Way," immense crowds thronged the ball grounds Monday night to ... by Vitucci's Royal Italian band and Joe Oppice's Rag time Band. "The ... "Ish-Ka-Bibble" where things turn inside out, Tangle Palace which was one of the most popular institutions of the whole combination; Rodgers Athletic Show, featuring an old friend, Jack Mero, welterweight champion wrestler; the Flea Circus, the animal show with Captain Curley Wilson and other renowned trainers and their animals, the pit show of the world wonders, merry-go-round, Ferris Wheel, Trip to Mars, Alma& Zada, freaks; Prof George, the midget strong man; Betty, the aligator girl, Dakota Max Wild West, Dion's animal show, Thelma, the half lady, and others and also a big line of concessions and games which are attractions in themselves.

One of the features with the carnival during the week will be afternoon open-air concerts by the Royal Italian band in the center of town. Michael Vittuci, the director is an Italian who has had much band experience, having come to America 25 years ago with the Banda Rossa, one of the best known musical organizations in existence at that time. He was a cornet soloist.

The carnival is one of the old-fashioned kind, with all the usual features and many of the unusual ones included. The tents are arranged in a circle at the grounds and in the center are grouped various attractions. Brilliant lighting makes the carnival by night the same as by day. As the press-agent—a genial gentleman—remarks, "the brilliancy of the canvas fronts of the shows, the gorgeous dress of the performers the spirited music of the two crack bands, the bark of the barkers and the ballyhoo all make as lively and jolly a scene as any holiday crowd could wish."

As a matter of fact, though not everybody knew it, the carnival opened up Monday afternoon. The crowd was big and happy and friendly without taking license or getting rough, so that altogether it was an auspicious opening for the Moose Mardi Gras.

OBJECTS TO PAYING ALIMONY TO HIS WIFE

Dr. C. W. Yarnall, of California Files Statement in Answer to Rule Recently Issued—Says Wife Has Estate and Can Pay Bills.

In the divorce action of Mrs. Allie Yarnall, of California, against Dr. C. W. Yarnall, the latter has filed an answer to the rule issued upon him to show cause why he should not pay his wife alimony and counsel fees pending the divorce action.

In this suit Mrs. Yarnall charges her hsband iwth infidelity. In his answer filed yesterday he denies this charge "both as a whole and in part." He denies that Mrs. Yarnall has no income competent for her support and cost of this action. He avers she has a separate estate and money available to a greater extent than he has. He admits that he owns several properties, but he says that these are heavily encumbered and do not produce sufficient income to provide for the taxes ond interest. Further he avers the petition for alimony and counsel fees, in which she asks for $500 is insufficient, and that it does not say how much is for counsel fees and how much for alimony. He avers the amount asked for is unreasonable and he is unable to pay it. He avers the rule was improvidently issued as it was issued on the same day that the libel was filed.

Moving pictures of the Knight Templar field field day and inspection exercises taken at Pittsburg a few days ago will be shown at the Majestic today. 17-tf.

TWO TOWNSHIPS MAKE CHANGES

Voting Districts Altered in Smith and Fallowfield by Viewers' Report

THREE NEEDED IN LATTER

Viewers reports filed Monday are favorable to changes in voting districts in two townships of the county.

Smith township at present has four precincts and will hereafter have the same number, but a change in the boundaries are made. On acount of the incorporation of Midway borough, formerly a part of Smith township, the third precinct was greatly reduced. The viewers find it can be accommodated by consolidating it with the second and making the voting place at Bulger.

In Fallowfield township there are at present two precincts. The viewers reported in favor of three. They find that in a section adjoining North Charleroi there are many voters who have to travel a considerable distance to vote, they being employed each day they cannot take the time to go a long distance to the polls. The viewers report in favor of dividing the first precinct. The voting precincts will hereafter be as follows: Supervisor's house, Bentleyville road; second, at VanVoorhis station, at McCracken's store, and third, at the W. W. Piper garage, adjoining North Charleroi.

HEALTH PURCHASABLE

In regard to its recent assertion that health is a purchasable commodity, the American Medical Association's Journal concedes that this statement is no longer a novelty. It is not necessary for it to be new, but it is necessary for it to be true, and there is no doubt that health is largely a matter of purchase—that while money cannot dispense with individual effort, money wisely expended, will do a great deal for the preservation of health.

It requires litle research to cite numerous cases wherein the institution of hygienic measures through public agencies and with the aid of governmental funds, has resulted in a conservation of human life important in itself and out of all proportion in its beneficent consequences, to the expenditure of effort or money involved.

Apart from the classic illustration of what has been accomplished in the Panama Canal Zone, is the eradication of bubonic plague from cities on our Pacific coast. The infection of the rat—the source of the disease as it is communicated to man—was carried to ground squirrels. After the recognition of this added danger, the United States Public Health Service caused a reduction in the number of these animals, estimated at 90 percent, from July, 1912, to November, 1914.

The field of the work covered an area of 3,376,146 acres, including about 2,000 miles of railroad right of way. As a result, bubonic plague has been eradicated from the state of California. The destruction of animal pests has incidentally resulted in large economic advantages. The ground squirrels caused great losses each year. Growing crops were eaten or destroyed, nursery stock damaged. The burrows made into the banks of irrigation ditches and canal banks were followed by floods with attending disasters and financial loss. Frequent interruptions to railroad traffic occurred through cave-ins and wash-outs that had their beginning through water finding its way through a ground-squirrel burrow. Subsidence of ties and rails took place because of individual burrows or colonies caving in, with resulting increase in maintenance-of-way charges and repairs to rolling stock and rails, due to pounding, and on rail ends and joints.

Investigation by the Pacific Health Service has revealed something regarding the unexpected magnitude of the savings resulting from the anti-squirrel campaign. Twenty-one persons reported saving over $2,000 in repairs to irrigational canal banks. Twenty-two reported an average saving of $90 per person on young trees. Even greater advantages were reported in respect to stored grains. Satisfaction was widely expressed, and from 497 replies received it appears that an average expenditure of 11.2 cents per acre in ground squirrel extermination brought an estimated saving of 34 cents per acre—a return of 300 per cent on the investment.

NO REASON FOR SUICIDE

The suicide in Washington, Pa., of a young girl because, after hard work all day, she could not make money enough to "keep body and soul together," suggests to the Reporter of that city something wrong with the [illegible] scheme of the country. This suicide was but one of many of the same kind but it is also true that the economic scheme of this country, or any other country, is not in a wholly satisfactory working basis, nor is it likely to improve any faster than human nature improves, which is slowly indeed, whether the [illegible]. But such as it is, it is the best the world has and it continues to improve despite criticism and it will keep on improving.

[illegible] case of the suicide [illegible] [illegible] like it, it would probably [illegible] close investigation that there was at the bottom some other reason than failure to get profitable employment. A false pride, often leading to needless humiliation and death, stands in the way of the comfort and happiness of many young women who refuse domestic service, which at the wages current and under the conditions offered is quite remunerative and should be equally satisfactory.

Many thousands of homes seek unavailingly for help—one dollar a day or more, with food, lodging and certain specified and ample privileges as to leisure hours. Many fathers and brothers can do no better. But young women decline such opportunities chiefly because they hate household work and service and would sooner hire out to harder conditions and smaller pay, since this saves their feelings they think. But it is a poor kind of thinking. Labor cannot create ideal circumstance or relations for itself any more than capital can do the same for itself.

PICKED UP IN PASSING

A business man was discussing the unemployed situation, says the Louisville Times. He had in mind an individual who was unemployed not because of industrial conditions, but because no one could do enough for him to keep him in a job. He told this story to illustrate the case of the unfortunate:

"A rich man in a small community was asked to buy lightning rods for the new church. He answered:

"'I gave the ground for the church I bought the lumber, paid the carpenters and put in the pews, the altar and the windows and then gave the church complete to God. If after doing all this, God wants to destroy the church, my buying lightning rods won't save it.'"

One day, while her grandfather was paying a visit to Florence's home the little girl said to him.

"Gran'pa, your talk about 'perseverance winning' is all nonsense."

"Well, well, child!" cried the grandfather, "why do you say that?"

"Why," said the little girl, "I've worked all the afternoon blowing bubbles and trying to pin them on mother's hat."

HOLIDAY MUCH ENJOYED HERE

Observance is Unostentatious But True Independence Day Spirit is Felt

POLICE REPORT QUIET DAY

The Independence Day observance in Charleroi Monday proved to be a very quiet, unostentatious affair that while characterized by the true holiday spirit was without the boisterousness and excessive noise usually accompanying the celebration.

Many took advantage of the double holiday—Sunday and Monday—to arrange pleasant visits away from town. Monday businesses were closed and amusement enterprises were operated at full blast. Picnics were much enjoyed. Locally there was little going on out of the ordinary excepting at the carrival grounds, where the Moose Mardi Gras opened.

There was a good-sized crowd at Eldora park during the entire day, and the holiday was enjoyed. A fireworks display was set off in the evening. At other points the fireworks displays were beautiful. Individual displays were set off here.

The police had a quiet day, there being but seven arrests during the entire day. All were for drunkeness and all the offenders were fined by Burgess S. L. Woodward.

DRIVING OF "DEAD WAGON" TO BATHING BEACH STARTS RUMOR

Report That Chair-Laden Car Bears Corpse Grows—Not the Least Semblance of Acident.

Just because an undertaker wagon was driven to the Bathing beach Sunday a rumor was started that a girl had been drowned and today further rumor was heard that seemed hard to set at rest. The "dead wagon" was driven to the beach with a supply of undertakers' chairs to be used at the beach. There was not the least semblance of an accident at any nature at the beach and the rumor was entirely without foundation, according to the beach authorities who are in position to know.

Lime Starvation Causes Tuberculosis

The Medical Record (New York) of December 18, 1909, contains an article on "The Treatment of Pulmonary Tuberculosis, Based on the Assumption That the Dietetic Cause of the Disease is Lime Starvation," by Dr. John F. Russell, who says: "The condition which is recognized as preceding the active development of tuberculosis in the adult may be considered as due to lime starvation. * * * Among inorganic substances lime salts appear to be of special physiological importance * * * but if the salts are not in organic combination it is difficult to suppose that the cells can appropriate them for food."

Years of widespread use confirm us in the belief that the success of Eckman's Alterative in cases of pulmonary tuberculosis (consumption) and chronic throat and bronchial troubles is due in large measure to its content of lime, so combined with other ingredients as to be easily appropriated by the cells.

Doubtless this has had much to do with the results obtained in many cases of these affections, which appear to have yielded to Eckman's Alterative.

As it contains no opiates, narcotics or habit-forming drugs, it is safe to try. Your druggist will order it for you or you can send direct.

Vogue of White Paint.

clever decorator who remodeled dining room in a New England house has even gone so far in ...ise of ...ite paint as to finish the ... with it. The woodwork and ...ture were also white but plenty ...olor was introduced by bright ...z patterned paper and plain ...t green rugs. The white dining ... table was always bare, which ...ed the mistress to use many at...tively colored doily sets. Her china showed up to splendid advantage on this white ground and the flowers from the garden seemed unusually bright and pretty in the midst of all this white. A country house near Cleveland has all its floors painted white, with bright green, blue and purple rugs used to carry out certain color schemes. Of course, using white floors is practical only when you are far from the city's smoke or motor's dust.—The Countryside Magazine.

GOOD CONTESTS STAGED AT THE CHARLEROI RINK MONDAY

Charleroi Boxing Club Entertains With Much Enjoyed Show—Frascatore and Elsner Have Lively Mill.

Some intensely interesting bouts were fought at the Charleroi skating rink Monday in the Charleroi Boxing Clubs show. The first bout was between Hek Pellett of Monessen and Young Moran of Daisytown. Pellett scoring a knockout in the second round. Kid Wagner of Monessen and Young Ketchel of Donora, fought a substitute battle that was pretty even, everything considered all the way through. Young Schultz of Monessen outpointed Ed. Hazel of Monongahela, but the scrap was a good one. Joe Frascatore and Fritz Elsner, both of Donora battled in the main event, and the contest was as pretty as any fan could wish to see. It was a pretty draw. The show was well patronized.

WOODWARDS WIN EASILY AT SHERIDAN; McGUIRE A STAR

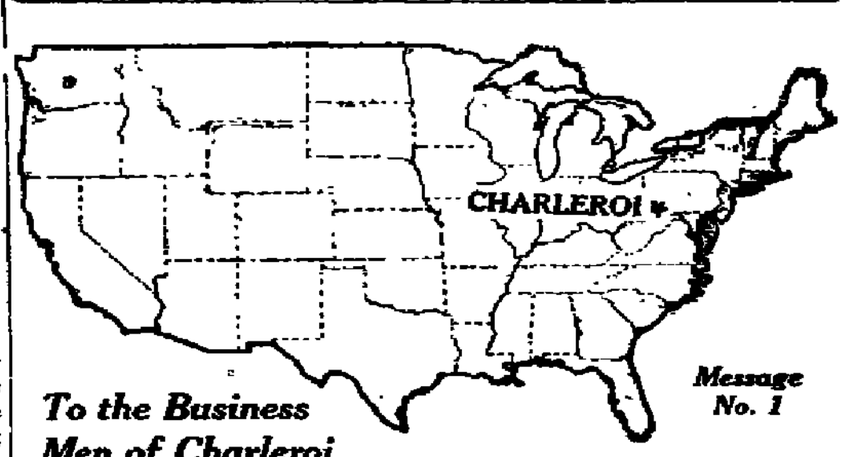

The Woodward A. C. traveled to Sheridan Monday and defeated the Gibson Ball club of that place in a double header, by the scores of 4 to 1 and 10 to 9. The hitting and fielding of the Woodwards featured the game as did also the pitching of J. McGuire, who in the first game allowed only one hit.

To the Business Men of Charleroi

Message No. 1

Business fights shy of dead towns. A sure sign of a dead one is the lack of local pride. People who live in a live, prosperous town show it. Their stores are attractive, their streets clean, their homes are well painted.

Nothing shows a lack of pride, a lack of prosperity, like paint-hungry buildings. Let's paint up. As the most durable and economical paint, we recommend

Dutch Boy Beymer-Bauman / Armstrong-McKelvy **White Lead**

and Dutch Boy linseed oil mixed right on the job, to suit the job. Have your painter tint it any color you wish. Consult your paint dealer on that job of painting you have in mind. Today's the day.
